Notes:

- If you are unable to present on your allocated day, please arrange a swap with one of your colleagues
- '5 min topics' should have maximum 2-3 powerpoint slides
- Topic reviews/ guideline reviews should take no more than 10-15 minutes. Use online content/ up to date guidelines where possible – Discuss with Consultant or Middle Grade in advance of presenting
- Cases for 'X-ray of the week' or 'ECG of the week' can be suggested and presented by any grade of staff
- If you have any other audit results or case presentations you want to present, these can always be slotted in
